Number of Municipalities with Mobile Home Parks, by County	8
--	---

I N T R O D U C T I O N

In June 1971, the Community Planning Branch conducted a mailed survey of Ontario municipalities, to gather data on the distribution of mobile homes in the province. The survey forms were mailed to 882 municipalities. Unorganized areas in the northern part of the province were not covered.

The survey included mobile homes only - not travel trailers. The distinction between a mobile home and a travel trailer, for survey purposes, was based on size, degree of mobility, utilities and use. In terms of use, the mobile home is used for permanent occupancy while the travel trailer is for seasonal use only.

The survey card requested a "Yes" or "No" answer to each of three questions:

1. Are there any mobile homes in your municipality?
2. Do you license mobile homes?
3. Are there any mobile home parks in your municipality?

Survey cards were completed and returned by 90% of the municipalities. Their responses indicate that there are mobile homes in 60% and mobile home parks in 21% of the responding municipalities.

No attempt was made to determine how many mobile homes are in use but it seems reasonable to assume that the larger concentrations occur in municipalities which have mobile home parks. These are listed in Part A. The total returns and total "Yes" answers are recorded in Part B and a map is included showing the distribution of municipalities with mobile home parks. Part C records the responses from each municipality.

This survey is part of a comprehensive research study on mobile homes in Ontario communities. As other segments of the work are completed, further reports will be published.
